

ENTENTE POWERS EXERTING EFFORTS TO PREVENT BREAK BETWEEN U. S. AND CARRANZA

Believe Tontons are Stirring Up Sentiment Against This Country.

RAY OF HOPE IN WASHINGTON

First Chief's Efforts to Provide Special Trains for Refugees Taken in Some Quarters to Indicate He Is Not Trying to Force Trouble.

By Associated Press.

WASHINGTON, June 21.—Strong pressure is being brought to bear upon General Carranza by representatives of European powers to prevent him from forcing a break with the United States. Indirect reports reaching the State Department today told of these efforts and said there was a possibility they would be successful.

Agencies of the Entente allies are said to be eager for peace, particularly because they believed Carranza's influence has sought to inflame the Mexican government against the United States with a view to preventing this country from gathering trade formerly controlled by Germany in Mexico. South and Central American. It is pointed out that Carranza might avoid war by calling for an international commission to discuss the border situation as provided for in the treaty of 1848. However, no suggestion for such a step has come from Mexico.

A definite statement has been received that General Carranza is joining all in his power at this time to protect Americans in Mexico from attack by the populace. He is said to have given Special Agent Rodgers in Mexico City all the aid in his power in arranging for trains to carry American refugees from the interior to Vera Cruz. In some quarters, this was construed as evidence that he is not bent upon provoking hostilities. The State Department had no advice bearing on these hopeful indications except that from Special Agent Rodgers announcing the progress of his efforts to get American citizens out. With the full consent of the Carranza authorities, he said, and the promise of adequate protection from the possible bandit attacks, he had arranged for a special train to leave the capital tomorrow carrying Americans to Vera Cruz.

Marching orders for national guard organizations summoned to the colors under President Wilson's call are still held up at the War Department pending completion of the mobilization of the troops at state camps. Just as soon as a sufficient force of the guardsmen have been mustered into federal service, the War Department will act upon General Funston's report of yesterday stating the number of units he desired and in what points he desired them forwarded. Only preliminary reports on the progress of the mobilization in the states had reached the War Department today. These were viewed as satisfactory.

Secretary Baker admitted that a plan providing that the senior class at West Point Military Academy be graduated immediately for active service was under consideration but that no decision has been reached. The plan would have exempted three years of their work and could be commensurate as second lieutenants if the emergency warrants such steps.

Washington anxiously awaited word today from Mexico City regarding General Carranza's attitude toward the note sent him yesterday, for on him depended the question of war between the two republics. High officials here admitted privately they look for war, although care was taken to avoid any formal expression or act which might appear a forerunner of a declaration of war. The only answer required from General Carranza is action suppressing outlaw treatment of Americans and officials feared against hope that this would not be done.

An overnight dispatch from Special Agent Rodgers at Mexico City, received at the State Department today, said arrangements had been concluded satisfactorily for the special train to carry out Americans and foreigners to Vera Cruz. He reiterated hope that it would start today, taking many of the 600 or more American citizens still in the capital.

A message from Mr. Rodgers said a train leaving Mexico City yesterday carried a special car with 30 American citizens, mostly women. The refugees should be in Vera Cruz by today, unless the car has been detained.

MEXICANS ARE WARY.
SAN ANTONIO, June 21.—General Pershing has given the Mexican troops a chance to make good their threat to attack him if he moved east or west, but the Mexicans declined the issue.

The American commander sent a small force eastward to Guzman, about 25 miles from his line of communications yesterday to investigate a report that a concentration of Mexican troops had been made there. He reported the incident to General Funston today, adding that the detachment had returned without finding any Mexican troops in that vicinity.

CRAGO PLANS RELIEF BILL.
WASHINGTON, June 21.—Representative Crago announced today that

THIS MOTHER RAISED SOLDIER SONS; SIX WEAR U. S. UNIFORMS

By Associated Press.
BALTIMORE, Md., June 21.—Of the 14 sons, all living, of Mrs. Mary Wolfe of this city, six now wear the uniform of United States soldiers.

Two are with the Twelfth Cavalry in Mexico, one is a member of the Twelfth Artillery, stationed in Vermont, and three are members of the Fourth regiment, Maryland National Guard.

Her other sons are not eligible for military service in the army or the guard.

He was considering the preparation and introduction of a bill which would provide for the support of needy wives and families of national guardsmen called into the service of their country. At the present there is no provision whatever for any payment to the dependent families of these soldiers.

Mr. Crago expressed the opinion that the government should take care of those left at home by the guardsmen provided it could be shown that such aid was necessary. It should not be given, of course, Mr. Crago thought, to those who had ample means or to those whose positions with pay were retained for them; but it was the plain duty of the country, he asserted, to see to it that a man should not be compelled to go to war for the defense of the preservation of the United States without having the assurance that there would be funds on hand to provide for the needs of his family or dependent parents at home.

The promptness with which the national guard throughout the country responded to the call of President Wilson, was ample reply, Mr. Crago declared, to the criticism which had been leveled from certain quarters at the excellent showing which had been made not only in Pennsylvania but in practically all the states, in mobilizing quickly and in raising recruits to help all the vacancies. The fact that 100,000 or more national guardsmen were ready in such a short time, whereas the army had spent weeks and only succeeded to date in adding about 20,000 men to the ranks of the regulars, revealed the value of the national guard to the country, said Mr. Crago.

REINFORCE GARRISON

EAGLE PASS, Tex., June 21.—General Murguia, Carranza commander arrived at Piedras Negras, the Mexican town opposite here, today, with a detachment of Yaquis, reinforcing the garrison there. A large part of the civilian population of Piedras Negras has already moved south.

Consul Stillman arrived in this city from Saltillo, coming by way of Monclova, owing to the cessation of railroad traffic between Monterrey and Nuevo Laredo. He expects to remain here several days. Mr. Stillman is the last American consul to leave Mexico.

AGUA PRIETA DESERTED.

DOUGLAS, Ariz., June 21.—Agua Prieta, the Mexican town opposite this city, was practically deserted today of its civil population. A handful of soldiers, the staff and guard of General Calles, military commander of Sonora, and the customs officers remained.

Fifteen hundred residents, mostly women and children, departed during the night for the south. They were loaded into cars of every description, the women and children huddling on the floorboards among their men's belongings.

RELEASE GERMAN BANKER.

WASHINGTON, June 21.—Chief Clerk of the Department of Justice telegraphed his El Paso agents to drop charges against Frederick Grieco, a German banker of Mexico City, detained there yesterday for alleged attempts to violate American neutrality.

Investigation convinced officials here there had been no violations.

BULLET FACTORIES BUSY.

LARGO, Tex., June 21.—Approximately 17,000,000 rounds of ammunition have been taken in charge by Carranza authorities throughout Mexico and the government factory is working 24 hours daily to augment this supply, according to an American refugee from Mexico City, who arrived here today.

The output of the government factory is approximately 30,000 rounds of cartridges daily, he said.

PROVIDING HORSES.

CHICAGO, June 21.—Possible needs of the United States for cavalry and artillery horses are being given first consideration intended for inspection by agents of the French and British governments are being submitted instead to inspectors of the United States army.

Famous Aviator Killed.

LONDON, June 21.—Lieutenant Immelman, the famous German aviator, is reported to have been killed.

COMPANY D READY FOR ROLL CALL AT ARMORY TOMORROW

Officers and Men are Active in Preparation for Mobilization.

WILL LEAVE FOR CAMP FRIDAY

Plenty of Applicants, Including Some Youngsters Turned Down Because of Their Age; C. E. Thomas and James Decker Go With the Band.

Following the order from regimental headquarters at Greensburg yesterday afternoon to mobilize Thursday and be prepared to move Friday, Captain C. Horvick of Company D, Tenth Regiment, this morning received the official mobilization order from Adjutant General T. J. Stewart. It is a detailed confirmation of Colonel Coulter's previous order, prescribing at length what preparations each company commander shall make.

The guardsmen are to mobilize at the armory on Thursday morning at 8 o'clock and be prepared to move at 10 o'clock. The mobilization camp will open at Mount Gretna at 6 A. M. Saturday. It will be known as "Camp Brimingham," in honor of the governor of the state.

Train orders will be received later. It is expected, however, that Company D and Company E, of Mount Pleasant, will leave on the same train for Greensburg.

Recruiting is going on daily at the armory. There are plenty of youths who want to join the colors and Captain Horvick has to watch closely to see that some under age are not admitted. Several who boasted their ages considerably were turned down last night. There were about 15 candidates for examination, but all could not be put through their paces. More will be examined tonight. Six were enlisted last night, making 14 since the recruiting began.

Captain J. C. Horvick is settling up the company's financial affairs, in accordance with the usual custom following a call to arms.

Charles E. Thomas, the main street merchant, will leave tomorrow for Greensburg to join the Tenth Regiment Band, of which he is still a member. Mr. Thomas was in the band when it was located in Connellsville. When it was taken from here and established at Greensburg he enlisted with the band yesterday. Another recruit is expected.

Homer Moser, whose enlistment expired yesterday, has re-enlisted.

There is much speculation as to how long the guardsmen will be away.

TO HONOR SOLDIERS.
A movement has been started by some business men to close their stores for an hour about the time the soldier boys leave for the mobilization camp at Mount Gretna on Friday. This is the least that could be done to honor the boys who may see service along the Mexican border in the next few weeks, patriotic residents declare, and it would make it possible to give them a gala sendoff.

"People generally do not realize," one man said, "that how serious the situation is. They fail to realize that it may be months before the company returns. The least we can do is show them that we are proud of them. I want to see the stores closed and the town decked out in flags the way it was the other night during the Flag Day demonstration. Here is a chance to show that we revere the flag and those who stand back of it with their arms."

WAK CLOSING COURT CASE.
Because Lieutenant John L. Robinson of Company D was called to mobilize with his command for Mexican service, the proceedings in equity on the receivership of the Indian Head Coal & Mining Company were suddenly halted yesterday and the hearing discontinued until "after the war."

Attorney Robinson represented the creditors who asked for the appointment of a receiver for the company.

15 CARS FOR FERTIL.
PITTSBURGH, June 21.—Officers of the Pennsylvania railroad today completed arrangements to move the Second Brigade, N. G. P. to Mount Gretna. The Eighteenth Infantry will encamp at Shady-side station and the batteries and Troop H at East Liberty.

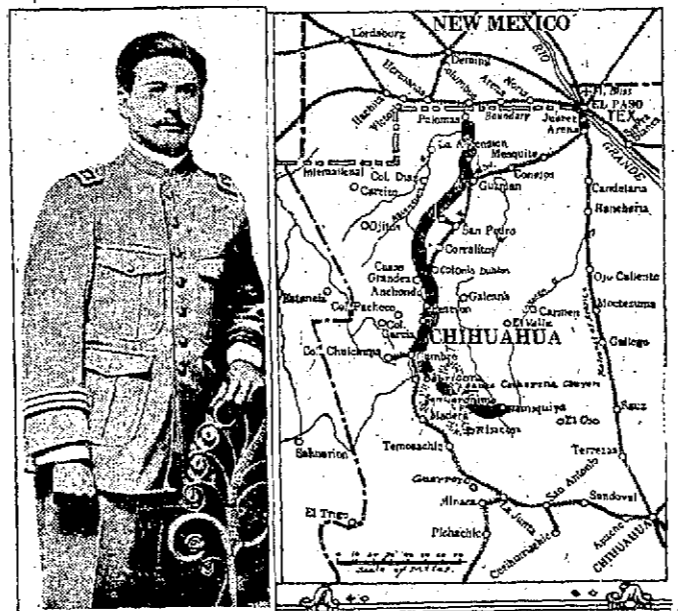

It was also announced that arrangements for moving the Tenth Infantry had been completed. 15 coaches, 7 box cars, one gondola and two sleeping cars having been provided.

The companies are expected to move out Friday night.

While enlistments in the local companies have been gratifying, officers declared they were still in need of men. It is probable that recruiting officers will be opened in the downtown district.

ENGINEERS LEAVE FIRST.
PHILADELPHIA, June 21.—First of the Philadelphia troops to entrain for the mobilization camp at Mount Gretna will be Company B of the engineers' battalion. The organization will start for Mount Gretna to assist in the work of preparing the camp for virtually the entire National Guard of

Trevino, Who Threatened Pershing, Is Personal Friend of Carranza.

GEN. TREVINO AMERICAN LINE IN MEXICO.

General Jacinto Trevino, the Mexican commander who threatened Pershing that an advance by American troops would mean war, is an intimate personal friend of Venustiano Carranza, de facto president of Mexico. He

commands about 80,000 troops, which have been maneuvered recently to be in a position to attack Pershing from Columbus, N. M., to Namiqipa, Mexico.

Revering in this city has been brisk ever since the President's call was received and several organizations already have been brought up to war strength.

Mayor Smith last night issued a call for a meeting of representative citizens on Thursday to formulate plans for the support of the families of national guardsmen during their service under the federal government. The mayor also called upon all employers to guarantee their men full pay wherever possible during their absence. An ordinance will be introduced into city council tomorrow at the direction of Mayor Smith, providing an appropriation to pay the salaries of all city employees during their service with the guard.

ONE-EYED NEGRO SHOT BY CRIPPLE; FUSS OVER DIME

Robert Gilroy, Alias "Hungry," Is Dangerously Wounded.

ASSAILANT HAS DISAPPEARED

Two Negroes Are Held as Witnesses to the Gunshot, But Scat, Alleged to Have Done Shooting, Is Not Located by Police; Sent a Borrower.

Robert Gilroy, a one-eyed negro, familiarly known as "Hungry," was shot and perhaps fatally wounded by another negro, said to be James Scat, a cripple who has been peddling pencils throughout the city, about 11:30 o'clock last night on the Davidson coke ovens. Scat has not been found. James Brown and a fourth colored man were arrested by the police as witnesses.

The witnesses declare that Gilroy and Scat had quarreled because the one-eyed man refused to lend his crippled companion a dime. Scat is also alleged to have drawn a revolver and fired at Gilroy as the latter was sitting on the ground, but a few feet away. The bullet entered the left abdomen, inflicting a serious wound. Scat, it is alleged, then fired another shot, apparently into his own head and jumped down off the ovens. He was not hurt, for the witnesses say they saw him walk to the end of the ovens and disappear.

Gilroy's wound was first dressed by Dr. P. J. Cell and he was later removed to the Cottage State Hospital. "Hungry" Gilroy is the negro who was sent to Youngstown, O., by City Detective J. W. Mitchell to apprehend John Torrance, the colored man who attacked and robbed Mrs. J. M. Rosenblum during the Clean-Up days. He followed Torrance, at the instructions of the detective, and pointed the fugitive out to the Youngstown authorities.

RAIN HAMPER THINGS
Several Contracts About City Held Back by the Weather.

The rain is putting a crimp in almost every improvement undertaken in the city this spring.

A force of West Penn men started to lay the new gutter rails on Race street this morning, but the all-day shower came up and they were compelled to quit.

A start was made on the finishing up of the excavation for the Methodist Protestant Church addition. The rain made it impossible to continue.

Until the Methodist Protestant job is completed no start can be made on the foundation of the new Crawford school on Seventh street, West Side. Contractor Bernard O'Connor having both contracts.

All current paving work is retarded greatly by the almost incessant downpours.

The official records show that there have been heavy rains on nine of the 21 days of this month, so far.

STRUCK BY TRAIN
Whitsett Foreigner Is Brought to Hospital Near Death.

Alex Fusiachos of Whitsett, who is 46 and married, was brought to the hospital late last night suffering from serious injuries to the back, ribs, head and shoulders, as the result of being struck by a passenger train on the Baltimore & Ohio railroad at Jacobs Creek.

The man is so badly injured that little hope is held at the hospital for his recovery.

ELECTRIC STEEL MILL PLANS PROGRESS RAPIDLY; OFFICERS AND DIRECTORS ARE ELECTED

NO BULL MOOSE IN KANSAS THIS YEAR; ELECTIONS WITHDRAW.

By Associated Press.
TOPEKA, Kan., June 21.—There will be no Progressive party ticket in Kansas this year.

This was made known today when it was announced that the 10 Presidential electors chosen at the state convention last month, would not file their declarations.

This action will give Kansas a clean-cut fight between Wilson and Hughes, with the Progressives supporting the Republican nominee.

YOUTH PROBABLY FATALITY HURT WHEN SHOT BY AN UNCLE

Chase for Rats in Corn Crib at Alverton Has Serious Consequences.

Special to The Courier.
SCOTTSVILLE, June 21.—While shooting rats in a corn crib, David R. Baer of Alverton, 14 years old, was accidentally wounded by his uncle, Benjamin Baer, and is in a critical condition at the Memorial Hospital in this city.

His recovery is not expected.

Both David and his uncle took Robert rifles last evening and went after the rats which had been particularly numerous about the place. In the excitement of rat chasing the pair became separated. The uncle saw a rodent and fired quickly. As he did so, David stepped in the path of the bullet.

The boy is the son of Mr. and Mrs. C. L. Baer, residents of Alverton. He was a favorite in the community over which the tragedy has cast a gloom. At the hospital it was found that the bullet had penetrated both the stomach and intestines, and that serious consequences are feared.

NEW WALK AND A CLOCK
Federal Building Soon to Have Several Needed Reimbursements.

A new brick driveway and a clock for the lobby are to be early improvements to the federal building, according to C. P. Sullivan, governor of the building inspector, who was in the city yesterday investigating recommendations recently made by Postmaster W. D. McGinnis.

Mr. Sullivan announced that he will recommend a new brick drive to replace the present cement road, which cannot be kept clean and sanitary.

There is a round hole in the fixtures of the lobby of the postoffice in which it was originally planned to place a clock. Bids on a timepiece have been asked from local jewelers. They are to be submitted by June 24.

The hole is now used by the general public as a means of mailing parcel post packages after the windows have closed. The night clerks often find the floor under the opening covered with packages deposited after closing hours in the evenings.

MISSION PROPERTY SEIZED
Turks Commandeer Schools and Hospitals of American Board.

By Associated Press.
NEW YORK, June 21.—Schools and hospitals owned and conducted by the American Board of Foreign Missions at Maragha and Siraz, Turkey, valued at more than half a million dollars, have been commandeered by the Turks for military purposes and the missionaries in charge compelled to abandon their work there, according to Americans who arrived here today from the Orient.

The property was taken over, they said, in May, when the diplomatic situation between the United States and Germany was tense over the negotiations growing out of the U-bout controversy.

RUSSIAN ADVANCE.
Cross-Sereth River With Austrians Strongly Resisting.

By Associated Press.
BERLIN, June 21.—With the Austrians guard closely, engaging them the Russians have crossed the river Sereth, the Austro-Hungarian war office announced in its report of June 20.

In the district of Lokatchi the capture of 1,300 Russians, one cannon and three machine guns is reported. The Russian forces which crossed the Stry river went of Kolki, were driven back by a counter attack, the official statement of the war office today announced.

FOUND DEAD IN BED.
Insurance Agent Succumbs in a Meyersdale Hotel.

MEYERSDALE, June 21.—J. M. Neis of Reading, Pa., an aged insurance man, was found dead in his room at the Central Hotel on Monday morning. Hardening of the arteries was the cause of death.

Mr. Neis came here about a month ago and for several weeks had been ailing, though he was able to be up most of the time. A son, who resides in Reading, has been communicated with and he is expected here to take charge of the remains.

MUST KILL DOGS.
Canines Upon Which No Taxes Were Paid Are to Die.

Notices were sent out yesterday to 24 constables in the county, containing lists of all dogs upon which no tax has been paid and ordering that these dogs be killed. Taxes on more than 8,000 dogs were paid this year.

The commissioners order all canines not wearing license tags to be killed immediately. A constable who refuses to do this is liable to a fine of \$2 for each dog he misses. It is provided, however, that when an authorized humane agent indicates his willingness to take a dog, it must not be killed.

GERMAN BOYCOTT SPELLS TROUBLE FOR THE ALLIES

Experts See Complications If Preferential Tariffs are Attempted.

MEANS A WAR AMONG FRIENDS

France and Russia Will Demand Favors in British Markets if Tariffs are to be Ignored, and This Will Not Please British Colonies at All.

PARIS, June 21.—Mr. Asquith's advice to the British delegates to the recent interparliamentary economic conference to "be careful not through excitement or blindness, or with the desire to clinch a victory, to take measures that will do you more harm than the enemy," was well given, in the opinion of some French economic writers.

Before the first interparliamentary conference there were fears in French as well as in English circles as to what might be the results of unauthorized discussion by parliamentarians of international affairs, and the results of the economic conference have not allayed such fears.

Max Hoeschler, in the Revue de Paris, says there is great danger that the hasty conceptions of these conferences, put into practice, would turn against their authors, and that the only plan of economic reciprocity between the Entente Allies thus far developed is of a nature to arouse the liveliest apprehensions; that it is even liable to bring about differences and provoke grave conflicts of interest between the Allies after the war.

M. Hoeschler declares "impossible" of application between the Allies themselves, the protectionism in four degrees proposed by the conference, as follows:

Reciprocal preferential tariffs between the United Kingdom and its colonial possessions.

Reciprocal and preferential tariffs, secondary to the foregoing, between the British Empire and its Allies on a favorable treatment, but in the third order of preference, to Australia.

Preferential tariffs on products of countries now enemies of the Entente Powers.

In the first place, the preferential reciprocal tariffs proposed for the United Kingdom with its colonial possessions puts Great Britain in hostility with Russia and in eventual conflict with her own colonies. The latter, M. Hoeschler expects, will seek larger advantages from the exception in the tariff in which events have placed them as providers of raw materials in this industrial war.

Canada which bought more than \$425,000,000 worth of goods from the United States during the fiscal year 1914-15 and only \$300,000,000 from Great Britain, notwithstanding the preferential duties of 37.5 per cent, would be reluctant to consent to an economic arrangement that would impede imports from the United States to the profit of the mother-country, and pay dearer for products which the latter would not perhaps be in position to furnish.

Canada, at the same time, is the great competitor of Russia in the British market, its exports of wheat to England having gone from twenty-one per cent of the total in 1912 to 64 per cent of the total in 1915, while Russia's percentage of British consumption remained stationary at about 15 per cent. Discrimination against Russia would shut her out of the market altogether. Russia's importations of wheat into Germany were valued last year at \$18,000,000 from Canada, N. Bondevsky, pointing out the significance of these figures to the Pan-Russian Agricultural Congress, stated that unless the Entente Allies facilitate the exportation of Russian products the empire would be forced after the war into an economic arrangement with Germany.

Professor Mignoulle, president of an economic commission attached to the Russian Ministry of Finance, wrote recently that it would be impossible for Russia to reject a country like Germany, which was before the war its best customer, unless the Entente Allies opened their markets more largely. He points out that Great Britain bought in foreign markets in 1913, \$50,000,000 rubles in cereals and \$740,000,000 rubles in alimentary products, of which Russia's part was only 125 million rubles, insignificant in comparison with Russia's exports to Germany.

It is pointed out by M. Hoeschler in the case of Canada that her present financial dependence on New York will eventually make it impossible for her to treat the United States otherwise than on the basis of a reciprocal tariff and that, in any case, the likelihood of an economic war such as would be involved in the interparliamentary conference's proposed tariff is impossible between the two countries.

The interparliamentary commission's proposition of preferential tariffs between Great Britain and the colonies would, in the opinion of M. Hoeschler, make it impossible for France to accept the arrangement before the war; she bought goods to the value of a billion and a half francs (principally silk, automobiles and provisions) of France in 1915, articles in which Germany could not compete. Consequently discrimination by Great Britain against Germany is of no advantage to her, while discrimination by Great Britain in favor of her colonies would be a substantial disadvantage to her.

The summary measures taken by England to force economy among her people and thus ease exchange and freight, and the consequent increase in French silk and ribbons, is pointed out by M. Yves Guyot as showing the irritating character of these economic problems and how necessary it is for the Allies to go slow.

David Monnet, president of the

AS PERSHING LOOKS NOW IN FIELD IN MEXICO

GENERAL PERSHING

This photograph of Brigadier General John J. Pershing, commanding United States troops in Mexico, was made recently in that country. General Pershing and his staff, with a large force of men are at Colonia Dublan, Mexico, in temporary field headquarters, according to the most recent reports.

Chamber of Commerce of Paris, has also warned the senatorial committee on economic organization that the economic situation with England and Russia is most delicate by reason of the action of these countries against French luxuries. "Our only possible reply," he says, "would be to tax products that affect masses."

A war of tariffs between the Allies is said by some writers to be the inevitable consequence of the economic war against Germany as proposed by the parliamentary conference. Since discrimination against France and Russia in the necessity of competing with Great Britain for markets that would compensate them for the loss of German and Austrian trade.

"Fortunately," said an authority on economic questions concerning the work of the conference, "the parliamentarians who have been discussing these questions were absolutely without official credentials; their discussions were mere talk, and when the economic relations of the Allies between themselves and with neutrals and the Central Empires are taken up seriously and officially, some, if not all, the uneasiness caused by the propositions of the previous conference, will be dissipated."

"In the talk of boycotting the Central Empires, well-intentioned people have been carried too far by their own zeal. France needs German coal; she needs the German market which, in spite of the treaty of Frankfurt, took enough French goods to more than balance the coal bought by France up to 1900. France will not easily get coal on as good terms elsewhere and, what is more important, she will hardly be able to trade her own goods for it."

"The proposal to engage in a war of tariffs has already produced one result: It has furnished Germany with an additional argument to overcome the hostility of Austria to enter the Central European Union."

THIN PEOPLE CAN INCREASE WEIGHT

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and many thin men and women we believe can add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it aims to turn the fats, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form, which the blood can readily accept. Much of this nourishment now passes from your body as waste. But Sargol works to stop the waste and do it quickly and to make the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient, and non-poisonous. All leading druggists in this vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back as found in each large box.—Adv.

An Agreeable Surprise. There are many who have no relish for their meals and who must be very careful as to what they eat, that would be agreeably surprised if they were to take a few doses of Chamberlain's Tablets. These tablets strengthen the stomach and enable it to perform its duties naturally. Hundreds have testified to the great benefit they have received from the use of these tablets. They only cost a quarter. Obtainable everywhere.—Adv.

KEYSTONE STATE EXPECTS EARLY CALL TO BORDER

Prediction of Congressman as to Efficiency of Troops Comes True.

GENERAL FUNSTON WANTS THEM

Great Activity About Washington; New Cadets for West Point and Annapolis Expected to be Named Shortly; Hopwood Makes Appointments.

Special to The Courier

WASHINGTON, June 21.—Bearing out statements which appeared recently in The Courier by Representatives Congo and Temple to the effect that the Pennsylvania National Guard was one of the most efficient and best organized in the United States, in the report which has reached here from San Antonio that the Pennsylvania militia probably will be one of the first called on by Major General Funston for service on the Mexican border, the Texas, Arizona and New Mexico state militias were called out recently. Representative Temple made the assertion that the Keystone State guard could have been mobilized, taken the long trip and been in active duty on the border before the militias of the three states which were ordered out at that time.

Army officers acknowledge that the Pennsylvania National Guard is in as good condition as any in the country. New York, Massachusetts, Ohio and Illinois also taking high rank. Representative Hopwood announced today that he had just appointed to West Point Norman C. Stittler of Somerset, who will enter the military academy in the near future, provided he passes his physical examination on July 10. He will not be required to take another mental test, as he passed the examination for admission last year when he was named by Mr. Hopwood as an alternate for the place. At that time Gordon R. Baer, now a cadet at West Point, took the examination as principal, and has completed his first year. During the next year young Stittler has been attending the University of Pennsylvania.

Mr. Hopwood also announced that he had designated a candidate for admission to the naval academy at Annapolis, the fortunate young man in this case being F. O. C. Williams of Uniontown, who has just come on to do some preparatory work before taking his examinations on June 27.

It is possible that Mr. Hopwood and some of the other members of Congress as well, may have other appointments to make in the near future, and young men in some sections already are being advised by their Congressmen to get ready for possible appointments. On account of the shortage of regular army officers, it was learned at the War Department, the officers who ordinarily would graduate from West Point in June, 1917, may be needed in service in the near future and graduated now. These men, about 110 in number, probably would be used as militia and recruiting instructors. In case they were not so used, it is also proposed that the cadet class which would graduate in 1918, be given leave from the academy to perform such service as they would be already capable of doing. It was said that there is ample precedent for such action, although it was admitted that it was not desirable and probably would not be taken unless there seemed to be a real necessity therefor. But if this is done, it would make room at West Point for more students there, and there probably would be a number of extra appointments to be divided up among the members of Congress.

Washington today assumed more of a martial air; it appeared more like a war capital than it has for a long time past, not excepting the inauguration days and other periods when numerous military organizations and their accompanying bands are here. The District National Guard was the occasion for this military atmosphere today. It was prepared to start for its mobilization point on the southern bank of the historic Potomac, the place selected for its temporary camping ground being at River, Virginia, near Fort Myer and the big Arlington wireless station with its three towering structures. Early in the day there was activity around the armories where the militia of the District makes its headquarters, and they were lining up ready to start off shortly after the noon hour and expected to be in their encampment and under cover by nightfall.

MEYERSDALE. MEYERSDALE, June 19.—Mr. and Mrs. W. H. Habel, Mr. and Mrs. J. M. Schlecht, Mrs. Clarence Rowe, Rev. J. J. Brady and Miss Ella Brady, of Ligonizing, Md., consumed a party which left here Sunday by automobile for Luray Caverns, Va. They will also visit Frederick, Gettysburg and other places. Rev. Brady will attend the commencement exercises at Mount St. Mary's, Emmittsburg, before returning home.

Mr. and Mrs. Charles Bolden of Pochontown, were guests of Mr. and Mrs. Sampson McKenna on Sunday. Mr. and Mrs. Robert Miller and the latter's mother, Mrs. Henrietta Blum, motored to Uniontown Sunday and spent the day with relatives and friends.

Prince Albert has always been sold without premiums or coupons. Quality is its standard—and my, how the millions of smokers have approved of it, too!

PRINCE ALBERT

the national joy smoke

stands clear-as-a-whistle above national or state restrictions on the use of premiums or coupons because they have never been given with Prince Albert. To offer such inducements would mean that Prince Albert's quality would have to be reduced to meet their cost! We prefer to hand smokers quality.

One test of Prince Albert will prove this to your absolute satisfaction! It will prove that P. A. cannot bite, cannot parch! Your enjoyment of its fine flavor and coolness will be supreme! The patented process by which Prince Albert is made cuts out bite and parch!

Prince Albert came unheralded a few years ago; today it has made three men smoke pipes where one was smoked before and has given cigarette rollers a new idea of makin's joy. To meet the approval of such an army of men of varied tastes, P. A. must have everything we or its most enthusiastic admirers ever claimed for it.

And Prince Albert has all that! It rings true and real and you just adopt it for all time quick as you get that taste and aroma into your smokeappetite! Because, it answers the fondest tobacco desires you or any man ever did express!

TURKEY WILL LEVY TARIFF UNHINDERED BY POWERS

For First Time the Ottoman Empire Will Engineer Its Own Financial Program

By Associated Press

CONSTANTINOPLE, June 21.—Turkey is about to adopt its first tariff law unhindered by foreign interference. Up to the outbreak of the war the government's hands were bound by obligations undertaken in connection with the public debt, so that it was not able to change its tariff without the consent of the great powers, which found it to their interest to keep the Turkish duties as low as possible. For many years they kept them at eight per cent, ad valorem and lower.

Turkish statesmen often pointed out that the duties were too low to yield sufficient revenue, and the government long demanded their consent for an increase. Germany gave its consent about fifteen years ago, but England and France refused (all several years ago, when they agreed to an increase to eleven per cent. Soon after Turkey joined the Central powers and entered the war the government denounced the so-called "capitulations" or arrangements which gave the foreign powers special rights in Turkey, including their control over the tariff system.

After waiting more than a year the government has now brought in a bill for revising the tariff. It is, for most articles, a very moderate measure, fully two-thirds of the duties ranging between only 10 and 15 per cent. Most other articles range between 20 and 50 per cent, and a few are as high as 100 per cent. These highest duties are intended for the protection of agriculture and some manufactured goods.

There is a small free list, which includes school books not bound and other educational supplies. Agricultural machinery is also put on the free list in the interest of the farmers. Among dutiable articles there is no uniform tendency to increase duties; in fact, about one-sixth of the list shows even lower duties than are now paid.

PROTECT YOUR HOME

Your home should always be protected against infectious disease by having ready for instant use a bottle of hydrochloric acid which is entirely free from acid. It is a reliable and very effective antiseptic which has a great many valuable uses right in the home. Too many homes have been bereaved because germs of sore throat, scarlet fever and other infectious diseases have not been destroyed. Too many people have suffered with blood poisoning because no attention was given a scratch, bruise or hurt. From any drug store get a bottle of hydrochloric acid. It is a powerful yet positively safe germ killer and it kills infection instantly. Better get it now. General Laboratories, Madison, Wis.

COMMENCEMENT IS HELD AT ST. JOHN PAROCHIAL SCHOOL

Interesting Program Is Presented by the Scottsdale Pupils.

SEVEN ARE GIVEN DIPLOMAS

Peterson Business College Commencement Will Be Held Next Tuesday. Two Weddings Announced. Civic Club Hears Dressmaking Teacher.

Special to The Courier.

SCOTSDALE, June 21.—The commencement exercises of the St. John's Parochial school were held at the school last evening. On the class roll were Nellie O'Connor, John Donnell, Leo Beards, Louis Turk, Moylous Ammend, Leo H. Keegan and William Moran. The following program was carried out: Song, "Welcome Swing Song;" dialogue, "Getting the History Lesson," by 12 boys; drill, "Guess Who?" by clowns with paper bags over their heads and the audience was to guess who they were; song, "Dandelions," by the girls; drill, "Poppy and Daisy," by the little tots; the class play, "Jack's Visitors," was then given in which Jack, the boy who hates history, was visited by Columbus, Sir Walter Raleigh, Pocahontas, William Penn, Francis Drake, George Washington, Captain Molly Pitcher, Abraham Lincoln, Richmond Pearson Hobson, a Red Cross nurse and Columbia, Jack's mother. Mrs. O'Connor also took part. The play was exceptionally good and was immensely enjoyed by the audience. This was followed by a song, "Is There Any Better Country," by the entire chorus; song, "Dutch Dolls," by 25 little girls; play, "The Merry Provoking School," was given showing the country school; a hymn was sung, "My Child, Give Me Thy Heart," and the closing song was "The Lord Is My Shepherd." The children were accompanied by Margaret Kennedy and Josephine Evans. Father Duffell gave a three minute talk.

PETERSON COMMENCEMENT.

The following very interesting program has been arranged for the commencement exercises to be held by the Peterson Business College on Tuesday evening, June 27, at 8 o'clock: Music, "Come Where My Love Lies Dreaming," and "Happy Dimples," by quartet composed of Barbara Welby, soprano, Elizabeth Martin, contralto, Homer Dunn, tenor and Wilbert McCully, bass; Invocation, Rev. S. C. Wagonman; music, "The Owl and the Pussy Cat," by quartet; lecture, "Foresee That," by J. Bell Neff; music, "A Rhapsody," quartet; presentation of diplomas, J. R. Campbell; music, "Amen," quartet.

McGIVERN CONNORS.

Miss Helen McGivern, daughter of Mr. and Mrs. Edward McGivern, and Michael Connors were married at 8 o'clock yesterday morning at St. John's Church by Rev. M. A. Lambing. Joseph McGivern, a brother of the bride, was best man, and Miss Margaret McGivern of Dunbar, a cousin of the bride, was maid of honor. Following the ceremony, an excellent wedding breakfast was served to the immediate members of the two families and the young couple left in the afternoon for a western trip. On their return they will make their home in Everton.

LATHAM-KEELER.

Announcements were sent out Monday announcing the wedding of Paul I. Keeler, a Frick office employee, and Mary Lydia Latham of Pittsburgh, at Columbus, Ohio, on last Friday. The young couple will be at home after September 1 at the Lathams' avenue house now occupied by Prof. Warner.

ADDRESSES CIVIC CLUB.

Mrs. Leo McMillan entertained the committee that has charge of recreation and all persons interested in the movement for a tennis club by the local Civic Club. At the meeting Miss Mary K. McComb of Pittsburgh, a former teacher in the Margaret Morrison school in Pittsburgh, and who has charge of the McPherson School of Dressmaking in Pittsburgh, gave an excellent talk before the committee of the school in Pittsburgh. Miss McComb came to Scottsdale yesterday with a view to opening a summer school of dressmaking in Scottsdale. Her talk was very interesting and she has been asked to speak before the Civic Club at its next meeting July 10. Miss McComb had charge of the dressmaking in the Irene Kaufman settlement work and there was no doubt as to the subject she chose for the Civic Club meeting, "Dress" Its Uses and Abuses.

GROCERS COMBINE.

The Grocers' Protective Association held a meeting here on Monday evening and nearly all of the grocers signed. At this meeting it was decided to follow the city rules and give the clerks a half holiday by closing up each Wednesday at 12:30 o'clock during July and August beginning on July 12. It is hoped by these people to have the dry goods stores join with them soon.

Stops Inflammation in Throat and Tonsils.

Ion-o-lex Unguent is probably the most important discovery that has been made in the field of medicine in fifty years.

It is not a drug—it contains no narcotics or opiates. It is perfectly harmless and does not interfere with any other treatment.

Takes the pain out of sore throat almost instantly. Stops inflammation anywhere in the body.

In Scrophulous Rheumatism, Gout, Toothache, Bronchitis, Appendicitis, Eczema, Erysipelas—in any inflammatory disease Ion-o-lex acts promptly and effectively.

Two forms—Ion-o-lex Unguent for external use and Ion-o-lex Internal Use.

You can get Ion-o-lex Unguent at A. A. Clarke who sells it under a guarantee—money back if it fails.

PERFECT HEALTH IS EVERY WOMAN'S BIRTHRIGHT.

When a girl becomes a woman, when a woman becomes a mother, when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances.

At these critical times women are best fortified by the use of Dr. Pierce's Favorite Prescription, an old remedy of proved worth that keeps the entire female system perfectly regulated and in excellent condition.

Reading, Pa.—"I was badly run down some years ago. I was in a tired-out, worn-out condition. After taking two bottles of Dr. Pierce's Favorite Prescription I felt stronger. I kept it up until I had taken six bottles. It is a very good medicine and I was pleased and satisfied with it."—Mrs. D. L. LUTHER, 322 Franklin Street, Reading, Pa.

Mother, if your daughters are weak, lack ambition, are troubled with headaches, lassitude and are pale and sickly, Dr. Pierce's Favorite Prescription is just what they need to surely bring the bloom of health to their cheeks and make them strong and healthy.

Sick women are invited to consult Dr. Pierce, by letter, free. Address Invalids' Hotel, Buffalo, N. Y.

The modern improvement in pills—Dr. Pierce's Pleasant Pellets. They help Nature, instead of fighting with her. Sick and nervous headache, biliousness, constipation and all derangements of the liver, stomach and bowels are prevented, relieved, cured.

1915 in Bell History

TWENTY-TWO months ago, sharp upon a period of world peace, all Europe burst into flame.

We, in this country, stood agnost. A giant shadow, born of war, was cast over our commerce and industries, and only the insistent Americanism of this country's determined men of business has held us to our course.

Yet during 1915 the Bell System, unflinching through history's most amazing year, gave to the world the two greatest achievements of communication: in January the Transcontinental Telephone Line linked the Atlantic with the Pacific, and but a few months later came wireless telephony—the human voice, disdaining even wires, flashed from Washington to Honolulu and to Paris!

Of such progress, ever continuous, we are proud, and we believe the American people likewise are, for it gives ample evidence not only of the existing confidence between the public and the company, but every promise that the requirements of the future will be fully met.

Recruits Flock to the Standard of Company E of the Tenth.

MANY WANT TO GO TO BOUNDARY

Benefit Affair Will be Held Thursday at St. Joseph's School; Other News.

Special to The Courier

MOUNT PLEASANT, June 21.—The nearer the time comes for mobilization the larger becomes the number who wish to enlist. Among them are young men in all walks of life, attorneys, superintendents of coal mines and even school boys off on vacation. A large number of men were enlisted, a number of them from Scotland.

The ladies in charge of the cafeteria supper and dance held a meeting last evening and changed their date and supper from Friday evening to Thursday evening as it is expected that on Friday evening the men will leave for Mount Gretna. Thursday evening the men will likely be quartered at the armory and the affair promises to be a rousing success. Dan Nirella has cancelled his Thursday date and given it to Mount Pleasant in honor of the boys. Mrs. Cort and her committee, some of whom are Sara Hood, Mrs. Kirk Bryce, Mrs. A. T. Collins, Mrs. Meyer Pinner and Mrs. William Templeton will have this dance one of the best ever held here.

The military spirit in truth will be a feature. The Municipal Band will give its concert and the affair will be just as staged for Friday evening.

Miss Mary Ida McGee, daughter of Mr. and Mrs. James McGee, and J. F. Ganster of Pittsburgh, were married yesterday at 5:30 o'clock in St. Joseph's Church by Rev. Father John Hackett. The attendants were the bride's sister, Miss Angela McGee and the groom's brother, Howard Ganster. Following a wedding breakfast to the immediate friends of both families, the young couple left on a wedding trip and on their return will make their home in Pittsburgh.

The commencement exercises of the St. Joseph's school was held last evening in the St. Joseph's Church. Father John Hackett preached an excellent sermon and Miss Murray sang a solo.

The diplomas were presented by Rev. John Hackett. Among the graduates were William McKeen, who took first honors, Hilda Hartwig, Carl Deluka, Eugene Murphy, Peter Nelder, Anthony Haymaker, John McDonald and Margaret Kelly. There was a large crowd in attendance and the services were very impressive.

At the Theatres

SOISSON THEATRE.

"NAKED HEARTS."—Bluebird Photoplays present Rupert Julian at the Soisson Theatre today in the beautiful and poetic live-action drama of love, "Naked Hearts." "Atlas Jane Jones" is a Laemmle two-reel detective drama with Edna Mason in the leading role. It is the story of two crooks who separate from a former pal and later they catch him with the goods and it turns out that the pair of crooks are not crooks at all but detectives.

"The Sea Lily" is a Big U drama featuring Zoe Buch. It is the story of an old lighthouse keeper who adopts a child washed ashore. Years later her lover regains her fortune for her and the old man is left in loneliness once more.

"Mr. Fuller Pop—He Breaks for the Beach" is a Powers comedy cartoon. Tomorrow the popular actress Pearl White appears in the 7th episode of the "Iron Claw."

"NAKED HEARTS"—She was engaged to marry a foppish lord whom her father had chosen for her, but her heart was given to another. On the night of the engagement party, she was ready to elope with the man she loved, and actually arrived at the

trysting place, when something happened that changed the whole course of her life and led her finally behind convent walls from which she was never to emerge. Meanwhile war had cast its shadow upon her life, time worked many changes, homes were wrecked and events that followed altered the verdict of fate so completely that what promised to become the story of happy lives and peaceful homes turned into deepest tragedy.

These are some of the incidents that conspire to make "Naked Hearts," the most gripping drama of the period.

CONFLUENCE.

CONFLUENCE, June 21.—Mrs. Mary Smith and daughter Frances and son Frank and little grandson, all of Chicago, are visiting the former's cousin, Mrs. G. R. McDonald, and niece, Mrs. John Trentie of the West Side. They motored through in a Ford touring car.

Miss Florence Cummins, a telegraph operator of Masontown, has returned here after a two weeks' vacation spent at her home here.

Quite a number from here are attending the Methodist Episcopal Church at Dawson today, Thursday and Friday.

John Ream has completed painting the residence and garage of T. W. Black on the West Side.

GOOD BALL TEAMS MAKE MANAGERS

Without First Class Players
Any Leader Is Rank Failure.

PILOTS HAVE HARD ROAD.

When Their Clubs Are Winning They Receive Nothing but Praise, but When Teams Are Losing They Are Targets For Criticism

Critics and fans usually blame the manager for the failure of a team. At times these charges are well founded, but there are times when it is the fault of the team that it is not higher in the race. On the other hand, there are managers who get a lot of boasting as the result of their teams' ability. Leo Fohl, for instance, was unknown to major league baseball a year ago, never having been identified with a major league team in anything but a

MANAGED THE MEXAN OF PITTSBURGH.

minor position. Yet he has made good as the manager of the Cleveland Indians. Just where that team will finish is not known, but it appears a clutch that wherever it goes Fohl will get nothing but praise for the showing.

Bill Donovan of the New York Americans is not getting the credit he deserves, for though his team is badly crippled, he is criticized as not being capable. Donovan is as capable as any of his rivals, and although the breaks have been against him, he has kept his team up.

Clark Griffith, who was scored by Washington fans last year because the Senators were down in the race, is a popular idol in the capital just now inasmuch as he has put his men in the running.

The sudden improvement in the Athletics has prompted the general belief that Connie Mack's ability to reconstruct his team is bearing fruit. But the poor playing of the Tigers, Browns and White Sox, actually caused by weak pitching, is blamed on their respective managers.

As long as the Brooklyn are in the first division in the National league race Uncle Wilbert Robinson will receive unstinted praise for his leadership. But if the Robins fall their manager is sure to receive some of the blame. Pat Moran has been pronounced one of the greatest managers in the profession, but what would the Phillies accomplish without the valuable services of Alexander? Stallings is another capable manager, but the Braves, minus Bill James, may not win this year's pennant. When the Giants were at the tail end of the procession McGraw was a target for criticism from persons who blamed the little manager for not securing first class pitchers. But since the Giants have a good chance to win the flag, praise for McGraw can be heard on all sides. Timmer will be roundly scored if the Cubs finish below the halfway mark, while the Cincinnati club may replace Herzog with a new leader if the Reds do not finish better than fourth. Hughes, who was an idol while the Cardinals were high in the race, is slowly losing favor in St. Louis, and it is a foregone conclusion that Jimmy Chatham will not manage the Pirates next year unless there is a phenomenal brace.

No matter how capable a manager

may be, he cannot produce a winning team without good playing material. Wisdom and decision alone will not suffice for a ball team. There must be playing strength in abundance before pennants can be won, and while of course, the manager has much to do with keeping a team fighting hard and directing its course during a campaign, he can accomplish little if potential strength is lacking.

COACH COURTNEY TO RESIGN.

Cornell's Great Rowing Leader Says This Is His Last Year as Manager.

The blow which Cornell men have feared would fall all too soon is to descend at the close of the present rowing season. Charles D. Courtney, dean of American rowing coaches and for thirty years more or less head coach of the Cornell crews, said recently in the shade of the boathouse at the Oakes club would be his last year as chief of staff of Cornell rowing.

This news, coming as it does after Courtney's illness, dating back to last June, when he suffered a fractured skull on the day of the arrival of the Cornell crews at Poughkeepsie, has been awaited with dread by every Cornell man. But the blow is lessened because of the old man's determination to continue in an advisory capacity, but being this case he will probably continue to wield a powerful influence in the shaping of Cornell's rowing destinies until his dying day.

Those who know Courtney, and the number is legion, know that he will die in the harness. They feel that he may sever his connection as head coach, but in the end it will be to him that all questions of policy will be taken before final decision is made.

Courtney is turning 61 this year, and together with his advancing age, has led him to take the step which he has talked of taking so often. Since his injury last summer Cornell's grand old man has been under physician's care without interruption, and even now he is accompanied at all times by a trained nurse.

Were it not so pitiful it would seem quite indeed to the Cornellians that Courtney to hear him say so, and to see him so determined to do things that have become second nature with him. He has not been out with the crews more than a couple of times since they have been out, and each time the nurse has been with him.

Without thinking he will reach for the megaphone and start to raise it to his mouth, when he will suddenly realize that he is not a coach any more, and ask whether he may. The answer is always and invariably in the negative and the megaphone slips back to the floor. Courtney, the wizard of the Hudson, is to all intents and purposes little more than a passenger in his own coaching launch.

Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument.

ALTHOUGH this series of little talks was primarily intended to combat with FACTS, the FALLACIES of the Prohibitionists, yet underlying the surface motive was a deeper and more significant one—the preaching of Temperance!

AMONG the great FALLACIES of the Prohibitionist is that one word Temperance. He smugly uses it as interchangeable with the word Prohibition, when, as matter of FACT, Temperance means using in moderation, but not total abstinence. A man who uses alcoholic stimulants in a sane and moderate fashion, is a man of Temperance—but he is not a Prohibitionist.

IN THE wild harangues of many evangelists are found "the heart black with anger," and "the tongue's sluice of hate," while they advocate a Temperance which is in neither Heart nor Tongue.

IN THIS series of FACTS versus FALLACIES there has always been a plea for true Temperance—in the biggest and broadest meaning of the word. And Temperance is as far removed from Prohibition as the North Pole is from the South.

Washington Expects 100,000 Militiamen for Possible Service in Mexico

No. 1 in the accompanying pictures shows an armored car recently acquired by the national guard of the state of New York for field use. The letters "1 A. N. B." mean "First Motor Battery." No. 2 is a line of New York militiamen in field uniform drawn up for inspection (photograph made on June 18). No. 3 is a picture of the commanding officers of the First Brigade, national guard of the state of New Jersey.

No compilation has been made by the War Department indicating the

exact number of men that will be produced by the militia call for possible service in Mexico. The best estimate available is that it should produce about 100,000 men, when skeleton organizations are recruited up to their minimum enlistment strength. Exclusive of the coast artillery there were on January 1, 1916, 7,740 officers and 117,862 enlisted men in the national guard, making an aggregate of 125,602. There were an additional 151 officers and 8,320 enlisted men in the militia coast artillery service,

which would make a grand total of 134,423. If the guard were recruited up to its minimum strength it would aggregate about 145,000 men.

Some of the organizations called out are up to their required minimum enlisted strength. These are to be recruited up to minimum strength in the mobilization camps if possible. Through such enlistment it is estimated that there should be in the neighborhood of 100,000 men produced by the call.

THRILLING GAME IS WON BY SHOPS OVER YARD TEAM

Mechanics Keep Record Clean, but Have to Go the Limit.

YARD BUNCH DISPLAYS CLASS

The League Staff Abounds in Contest at South Connelville; Blanchard, Francis, Bulles and Gelsie are in the Fray; Other Games in League.

In a game abounding in thrills from the first inning until the last, the Shops kept their record clean by defeating the Yards, 6-4, at South Connelville yesterday afternoon. To the credit of the Yard team let it be said that the Shops had to go the limit to win. It was a well played, hard fought game, and one that developed more enthusiasm to the inning than any contest staged in recent years.

The Shop rovers were in force, none more enthusiastic than Master Mechanic T. C. Miller. Mr. Miller formally protested the game before its start, alleging that Balls was not a legitimate employee of the railroad and not entitled to be in the Yard's lineup. The Shop team took the field, however, and the game was played with Balls in place.

With Booth Blanchard on the slab, Chip Francis in middle and Balls at second for the Yards, and Gelsie on third for the Shops, the game had the earmarks of minor league stuff. It was just as fast as that, too.

Sandusky, who had the mound for the Shops, was unsteady in the opening inning, but after that he twirled a nice game. Blanchard also performed well. He was touched for nine hits, but he made nine men fan.

Yards took the lead in the first inning, scoring two runs, one of which was forced through the wildness of Sandusky. Shops came back in the second, tying the score. Shops got one in the third. There was no more run getting until the fifth, when Shops scored two more, and repeated with one in the seventh. Yards scored two in the eighth, but that was their best and the game ended, 6-4, Shops.

The attendance was large. The score:

THE KIND OF TOBACCO YOU LIKE

"American Navy" Has the Delicious, Lasting Taste That Satisfies

FULL OF JUICY SWEETNESS

For purity, wholesomeness and delicious goodness, no way of using tobacco can equal chewing it—and no form of chew can compare with rich, mellow, juicy plug tobacco.

Take American Navy for example. There's a tasty tobacco for you. An elastic, lasting chew crammed full of juicy sweetness. A chew that holds its savory flavor longer than any other tobacco.

In American Navy you get all the qualities you like so much in "scraps" tobacco plus the richer, mellow, juicier flavor that only Navy can give you. American Navy has been the favorite of sturdy, steady chewers for years. You can't begin to get the same satisfaction out of any other tobacco.

Made of choice, ripe, whole leaf by the most modern sanitary processes, American Navy is better than many chewing tobaccos that cost you more.

Be sure you're equipped with a supply of American Navy before you tackle another day's work. In 5c and 10c cuts.

Awning-Striped Skirtings Again
—As the open-air season advances, the requests for these vivid skirtings come thick and fast—somehow they seem so peculiarly adapted to out-of-doors gaiety and freedom. We have them in several cotton fabrics—ducks, gabardines, and suitings—and in various widths and weights, not to mention as many colors and stripes as you can shake a stick at. Priced 25c to 50c a yard.

Our Dress Goods Section
—Is prepared to do hemstitching, peccotting, tucking and pleating in the shortest possible time, all work guaranteed.

—Semi-made Skirts, either plain tailored or plaited, in 16 different styles. We make these for \$2, from any material you may select. Workmanship and fit guaranteed. White wash Skirts and those of awning striped materials are favorites at this time.

Black Mohairs as Usual for Finest Bathing Suits
—New materials for Bathing Suits are cropping up each year, but for all-around good qualities and wear nothing yet has been found to equal the sturdy water-shedding mohair. Only the best of English Mohairs are here, and these in beautiful plain weaves. Priced 75c and \$1 a yard.

Sturdy Baggage for Vacationists and all Who Travel

—It is a "far cry" from the days of the old hair cloth trunks to the present convenient, strong, and good looking baggage, and yet some folks insist upon transporting their possessions in troublesome and out-of-date trunks, suit cases and hand bags. Going away is robbed of all its terrors when one is accompanied by the sort of luggage shown in this display.

—WARDROBE TRUNKS, several styles and sizes at \$25, \$30 and \$40.

—STANDARD TRUNKS, 28 in. 30 in. 32 in. 34 in. 36 in. and 38 in. at \$4.00 to \$16.00.
